12-month Master of Science in Global Media and Cultures

Modern Languages & Literature, Media, and Communication

Our 1-year program combines advanced language training, media studies, and career preparation. Position yourself for roles in management, international private sector, globally oriented science and technology, and communications.

- Customized opportunities for internships, media studies, research, and study abroad.
- Bilingual portfolio development.
- Personalized advising to jump-start your career.
- Competitive funding opportunities.

Intermediate-mid proficiency in Korean and TOEFL 90+ required.

Korean at Georgia Tech

The graduate program in Korean at the Georgia Institute of Technology offers a thorough grounding in the Korean language, culture, history, and society, providing students with the tools they need to understand the cultural powerhouse that is South Korea today. Areas of faculty expertise include: film and media, game studies, cultural studies, cognitive linguistics, phonetics and phonology, and syntax and semantics. Students will leave with both a high level of competence in the Korean language and a comprehensive knowledge of Korean society.

Opportunities Abroad:
Language for Business and Technology (LBAT) in Korea;
A faculty-led summer immersion program run in Seoul, Korea for 8 weeks and opportunities up to 2 courses: Korean Society and Korean Industry.

M.S. in Global Media and Cultures is available with concentrations in Chinese, French, German, Japanese, Russian, Korean, and Spanish.
Design your dream career

“The vision of the program aligns so closely with my goals and values. If I could have created a graduate program, the M.S. in Global Media and Cultures would be it.”

Leighton Rowell
MS-GMC student
